I design **accessible + intuitive** interactive front end functionality.

I have a strong understanding of XHTML, **HTML5**, **CSS2/3**, jQuery + **Search Engine Optimisation**, as well as experience using **PHP**, **ASP** + **MySQL**.

I pride my work on valid, **accessible code** paired with simple, **creative + immersive design**.

I find all forms of digital media fascinating + I have a wide variety of work shown in several projects in my portfolio, ranging from 3D design to Python scripting.

My dream is to become a product + service **prototyper, tester + developer**.

Skills

Work

Nebulo Strata

March 2010 - Present

www.nebulostrata.com

Junior Designer:

My tasks at Nebulo Strata vary every day, although my focus is on web design. This involves designing sites, creating them using valid mark-up, update + content manage existing sites + work on search engine optimisation, including keyword research + analytics.

I have become very knowledgeable of WordPress + creating websites that are easy for clients to manage their content through the platform.

AllGigs

2009 - Present

www.allgigs.co.uk

Freelance Content Researcher / Producer:

I research + write short articles to be featured on the site, covering a wide variety of events

Ebiquity PLC

Sept 2009 – Dec 2009

www.ebiquity.com

Data Entry Clerk:

I was responsible for working as part of a team to hit strict deadlines as live content goes directly to clients via email + the company website. Duties included verifying, cropping, précising + analysing news articles from all types of media, including newspapers, websites, television + radio.

I participated in testing new software, adding suggestions + reporting bugs.

The Co-Operative Store

2006 - 2007

Customer Service Assistant:

I was required to cover most areas of retail, including operating the tills, stock taking + working as part of a team.
